AB CONSULT ▪ PARLIAMENTARY CAPACITY BUILDING INITIATIVE

APPLICATION OF ARTIFICIAL INTELLIGENCE IN PARLIAMENTARY RESEARCH

Executive Training Outline

5-Day Executive Hands-On Program Outline (Zero-Copy Desktop Ingestion)

Lead Facilitator:	Eng. Dr. Kadeghe Fue, PhD	**Document Ref:**	SUA/COEBS/PARL-AI/EXEC-00
Target Cohort:	Parliamentary Researchers & Clerks	**Program Dates:**	9–13 November 2026

Executive Summary & Pedagogical Philosophy

The Zero-Manual-Copy Mandate ("Drop the File, Ask the AI")

Core Executive Problem

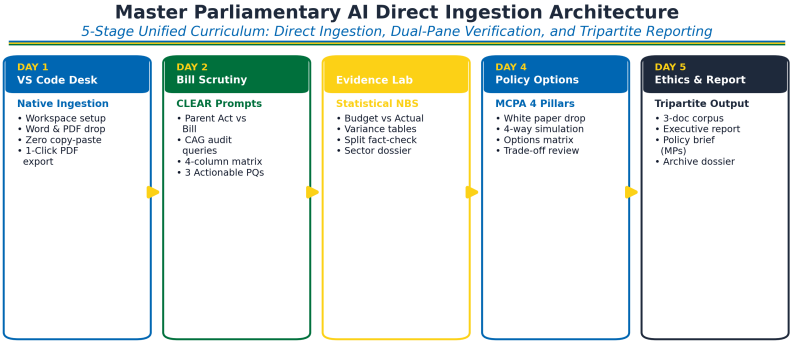

- Parliamentary clerks and researchers handle **hundreds of pages** of bills, audit reports, and estimates weekly.
- Traditional copy-pasting is **error-prone**, causes formatting chaos, and loses evidentiary context.
- Legislative scrutiny requires **rapid cross-referencing** without programming knowledge.

The Applied Solution

- **Zero-Copy Ingestion:** Trainees drop native `.docx` and `.pdf` gazettes directly into workspace folders.
- **Role-Grounded AI:** Specialized prompts query whole files (`@filename`) inside Visual Studio Code.
- **Split Dual-Pane Verification:** Raw law is always open side-by-side with AI-synthesized outputs.

Master Ingestion Architecture

5-Stage Unified Curriculum: Direct Ingestion, Verification, and Reporting

Institutional Governance & Sustainability

Strategic Integration in Bunge Research Operations

Immediate Institutional Impact

- **10x Faster Analysis:** 100-page bills scrutinized in 15 minutes instead of 3 days.
- **Evidentiary Depth:** CAG financial audit tables cross-referenced with zero copy errors.
- **Uniform Output:** Publication-grade PDF dossiers ready for committee distribution.

Long-Term Institutionalization

- **Trained Cohort:** Self-sufficient research clerks across all standing committees.
- **Security Architecture:** Zero document leakage; all data remains in sovereign desks.
- **Academic Partnership:** Continuous capacity building via COEBS, SUA & AB Consult.
